HEALTH CARE ACROSS THE POND AND BEYOND

Health Care Administration / Communication

Enhance your expertise in health care systems in London and Dublin. With both cities as our classroom, students will gain multicultural health awareness by exploring sites such as the Florence Nightingale Museum, St. Thomas Hospital, The Royal London Hospital Museum, Trinity College Book of Kells, and Children's Health Ireland at Krumlin. Current health care systems and settings will be compared and contrasted. Using the London and Dublin healthcare systems as a foundation, students are encouraged to develop a narrative for American healthcare in the future. This course is perfect for the future healthcare professional, healthcare communication professional, and the healthcare consumer.
